## Databases and Mail Merge

<b>The Exercises and Lab Files</b> .....	<b>vii</b>
<b>OpenOffice.org Mail Merge</b> .....	<b>1</b>
<b>Introduction to Databases and Mail Merges</b> .....	<b>3</b>
<b>Creating Simple Databases</b> .....	<b>5</b>
<i>Creating a Text File to Use As a Database</i> .....	5
<i>Creating a Spreadsheet to Use As a Database</i> .....	5
<i>Creating a Database That Connects to a File</i> .....	6
<i>Creating a Database That Connects to Access</i> .....	10
<b>Creating Mail Merge Documents</b> .....	<b>13</b>
<i>Creating a Database for These Exercises</i> .....	13
<i>Creating a Mail Merge Letter From Scratch</i> .....	16
<i>Creating Mail Merge Envelopes</i> .....	18
<i>Creating Your Own Envelope Using Page Formatting</i> .....	23
<i>Creating Mail Merge Address Labels</i> .....	27
<i>Suppressing the Address2 Field or Other Fields</i> .....	32
<b>Printing Mail Merge Documents</b> .....	<b>37</b>
<i>Printing a Mail Merge Document</i> .....	37
<i>Printing Specific Non-Consecutive Records</i> .....	38
<i>Printing to a File Instead of the Printer</i> .....	38
<i>Printing for Only a Specific Group of Records Using Sort</i> .....	40
<i>Printing for Only a Specific Group of Records Using Filter</i> .....	43
<i>Previewing the Data That Will Print in Mail Merge Documents</i> .....	46
<b>Creating Mail Merge Documents Using Wizards</b> .....	<b>49</b>
<i>Using the Fields Window to Insert Mail Merge Fields</i> .....	49
<i>Creating a Mail Merge Document Using the Complex Mail Merge Wizard</i> .....	51
<b>Creating an Email Merge Using a Template and the Mail Merge Wizard</b> .....	<b>65</b>
<i>Overview</i> .....	65
<i>Setting Up the Email Parameters</i> .....	65
<i>Creating a Database</i> .....	66
<i>Creating a Template</i> .....	68
<i>Using the Wizard to Send the Email</i> .....	70
<b>StarOffice and OpenOffice.org Databases</b> .....	<b>75</b>
<b>Creating Databases and Tables</b> .....	<b>77</b>
<i>Registering an Existing OpenOffice.org Database</i> .....	77
<i>Creating a Base Database</i> .....	79
<i>Creating a Table in a Base Database Using the Wizard</i> .....	80
<i>Entering Data in a Base Table</i> .....	84

<i>Creating a Table in Design View and Defining Default Field Formats</i> .....	86
<i>Creating a Relation Between Tables</i> .....	93
<i>Specifying a Primary Key</i> .....	96
<i>Sorting Data in a Table</i> .....	98
<b>Importing and Exporting Table Data</b> .....	<b>100</b>
<i>Preparing to Import Data: Overview Prior to Exercise</i> .....	100
<i>Importing Data From a Spreadsheet Into a Base Table</i> .....	102
<i>Appending External Data to an Existing Table</i> .....	107
<i>Exporting Data From a Table, View, or Query</i> .....	110
<b>Views, Queries, and Relations in Base</b> .....	<b>115</b>
<i>Overview of Queries Versus Views</i> .....	116
<i>Creating a Query Using the Wizard</i> .....	116
<i>Creating a Query Using SQL</i> .....	121
<i>Creating a View in Design View</i> .....	122
<i>Quick Reference to Criterion Syntax</i> .....	126
<i>Creating a View or Query Using Functions</i> .....	128
<i>Tip: Modifying a View</i> .....	132
<i>Creating a Query Using Calculated Fields and Applying Field Format</i> .....	133
<i>Creating a Query Using Calculated Fields and Functions</i> .....	136
<i>Creating a Query Using Joins and Functions</i> .....	138
<i>Modifying a Query</i> .....	143
<b>StarOffice and OpenOffice.org Forms and Reports</b> .....	<b>145</b>
<b>Creating and Using Database-Based Forms</b> .....	<b>147</b>
<i>Creating a Simple Form Using the Wizard</i> .....	147
<i>Modifying a Field Type in a Data Entry Form</i> .....	150
<i>Creating a Data Entry Form With Joined Tables</i> .....	154
<i>Using a Data Entry Form</i> .....	158
<i>Finding a Record Using a Form</i> .....	160
<b>Creating Forms From Scratch</b> .....	<b>163</b>
<i>Creating a Simple Form</i> .....	163
<i>Adding Lists, Numeric Fields, and Checkboxes to a Form</i> .....	171
<i>Creating Radio Buttons</i> .....	174
<i>Using Group Box Labels</i> .....	175
<i>Assigning Tab Stop Order</i> .....	177
<i>Specifying Field and Text Label Size</i> .....	178
<i>Formatting Form Controls</i> .....	179
<i>Aligning Form Controls</i> .....	182
<i>Creating a PDF Version of the Form</i> .....	183
<b>Creating and Printing Reports Using the Report Wizard</b> .....	<b>186</b>
<i>Creating a Report Using the Report Wizard</i> .....	186
<i>Saving a Copy of the Report</i> .....	190
<i>Modifying a Report</i> .....	191
<i>Creating a Report With Groupings (One-to-Many Relationships)</i> .....	194
<i>Adding a Calculated Field to a Report</i> .....	197
<b>Creating Reports From Scratch</b> .....	<b>203</b>
<i>Registering a Database for These Exercises</i> .....	203
<i>Creating Field-Based Reports From Scratch</i> .....	204
<i>Creating Plain Text Reports From Scratch</i> .....	207
<i>Using the Next Record Field to Print Multiple Records on the Same Page</i> .....	209
